Declaration of personal data usage for Registration

The registration form requests personal data that are used to enable the organization and documentation of ISESO.

This data are used for organization, billing and creation of a list of participants for the ISESO. The list of participants distributed to the participants will contain: Title, Name, Organization and Email and may be used for invitations to follow up conferences. Furthermore, the data is shared with the event organizer eveeno.

The list of participants is collected and distributed to document the conference and facilitate the exchange between the conference participants. If you do not want to be listed in the list of participants please send an email to iseso@h-its.org, before October 1st, 2018.

Also the funding agencies (Klaus-Tschira Foundation and German Research Foundation (DFG)) will be provided with a list of participants for documentation and justification of their efforts.

Photos taken at the conference, especially the conference group photo, might be published in the Internet as well as in printed material documenting the conference. I agree with this.

The slides of contributed talks might be published on a password protected page in the internet (conference website). The organizers do not allow these slides to be published on other sites in the internet. Speakers are asked for a written permission for publishing their slides.

By submitting the registration form to the ISESO organizers, I agree with the statements above.
